JERSEY CITY, NOVEMBER

To WILLIAM J. RAND, Esq. :-

Sir: Your "Sea Moss Farine" is deserving the  
 of Physicians as an article of diet in sickness. Its  
 digestible qualities render it peculiarly adapted to the  
 digestion of infants and children with summer complaints.

The following case is instructive:

Aug. 18th. An infant of 5 months, constitutionally w  
 fed through the bottle, and suffering fr  
 came under my care. It was rapidly  
 nutrition; a variety of farinaceous artic  
 one of which could be digested, and fina  
 ed by the stomach. Evacuations wer  
 sisted of "cat-naps," owing to constan  
 were without effect. The case grew mo  
 daily, and at last was given over to die.

As a *dernier ressort* a little of th  
 was prepared with water, and given in s  
 retained, without pain! the child slep  
 eight, with no evacuations for the s  
 hours. From that day the child began  
 fine.

Yours, &c.,
